Election/Restrictions

1. The reply filed on 1/10/08 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant is required to elect a **single** species to which the claims shall be restricted if no generic claim is finally held to be allowable. See 37 CFR 1.111. In this instance, Applicant elected two disclosed species (Species D and N, see Remarks dated 1/10/08, pg. 10, 5th line from bottom of page).

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

2. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- | | |
|--------------------|--|
| (Species A) | The 1 st preferred embodiment (paragraph [0029]); |
| (Species B) | The 2 nd preferred embodiment (paragraph [0030]); |
| (Species C) | The 3 rd preferred embodiment (paragraph [0031]); |
| (Species D) | The 4 th preferred embodiment (paragraph [0032]); |
| (Species E) | The 5 th preferred embodiment (paragraph [0033]); |
| (Species F) | The 6 th preferred embodiment (paragraph [0034]); |
| (Species G) | The 7 th preferred embodiment (paragraph [0035]); |

(Species H)	The 8 th preferred embodiment (paragraph [0036]);
(Species I)	The 9 th preferred embodiment (paragraph [0037]);
(Species J)	The 10 th preferred embodiment (paragraph [0038]);
(Species K)	The 11 th preferred embodiment (paragraph [0039]);
(Species L)	The 12 th preferred embodiment (paragraph [0042]);
(Species M)	The 13 th preferred embodiment (paragraph [0043]);
(Species N)	The 14 th preferred embodiment (paragraph [0044]);
(Species O)	The 15 th preferred embodiment (paragraph [0045]);

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The following claim(s) are generic: claim 1 and claim 14.

3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or

corresponding special technical features for the following reasons: each embodiment comprises a special technical feature not shared by the other embodiments.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

4. The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Deandra M. Hughes whose telephone number is 571-272-6982. The examiner can normally be reached on M-F, 8:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Keith can be reached on 571-272-6878. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
